EXIGIS, LLC. Announces Launch of Redesigned Website

NEW YORK, NY, APRIL 23, 2009 – EXIGIS, LLC., the leading provider of risk management services and process automation software, announced today the launch of a new website (www.exigis.com) showcasing its RISKworks® Risk Management Operating System® (RMOS®) and expanded suite of business services.

The sleek and intuitive design of the new website includes updated content and enhanced features like; video demonstration modules, RISKworks® screen captures, live chat, integrated web meeting access, and Twitter®.

“We are very excited about the launch of our new website. The website achieves the perfect balance of information, functionality and ease of use” said Frank McMackin, Director of Business Development, EXIGIS, LLC.

ABOUT EXIGIS, LLC. –

EXIGIS, LLC. is an integrated risk management services provider and the industry leader in risk, insurance and business process automation technology. Our comprehensive solution suite leverages proprietary workflow technology and expert business services to streamline resource intensive processes and enhance resource productivity. Since 2002, EXIGIS has successfully partnered with leading Fortune 500 corporations and public entities and has established a reputation for quality solutions that exceed project expectations.

ABOUT RISKworks® –

The EXIGIS RISKworks® platform is the industry’s first and only 100% web based multi-application Risk Management Operating System® (RMOS®). RISKworks® can be configured with any combination of over

14 proprietary Application Modules; each focusing on a distinct risk management, insurance, treasury or business process.

RISKworks® Application Modules include:

- Allocations
- Auto ID Card Issuance
- Certificate of Insurance Issuance
- Certificate of Insurance and Compliance Tracking
- Contract Management
- Exposure Data and Renewal Values Collection
- Incidents and Claims Reporting
- Policy Management
- Reporting and Process Analytics
- Risk Control Recommendation Tracking
