

EXIGIS INSURANCE COMPLIANCE SOLUTIONS

RISKWORKS RM.COMPLIANCE

Exigis' Full Service Certificate Management and Insurance Compliance Solution improves compliance by centralizing and automating the collection, validation, and maintenance of third-party Certificates of Insurance, Endorsements, and other supporting documents. **Here's how it works:**

New vendors are added to the RiskWorks application and assigned to a Risk Profile identifying required insurance

Exigis reviews vendor Certificates of Insurance and Endorsements and evaluates compliance with contractual requirements

Exigis communicates with third parties and insurance brokers to obtain corrected certificates and renewal documents

here's whats included

Insurance Monitoring

- **Evaluation of Certificates and Endorsements** against contract insurance requirements
- **Automated renewal and non-compliance** notifications to third parties and insurance brokers

Professional Support

- **Single point of contact** for implementation and account services
- **Multi-channel support** for internal and external users: live chat, email, phone available from 8:00 am to 8:00pm EST

Online Access & Reporting

- **Compliance Dashboard** with real time graphs and data
- **Complete Audit Trail** – certificates, events, and communication
- **Ad-Hoc Reporting** – custom reports & automatic scheduling

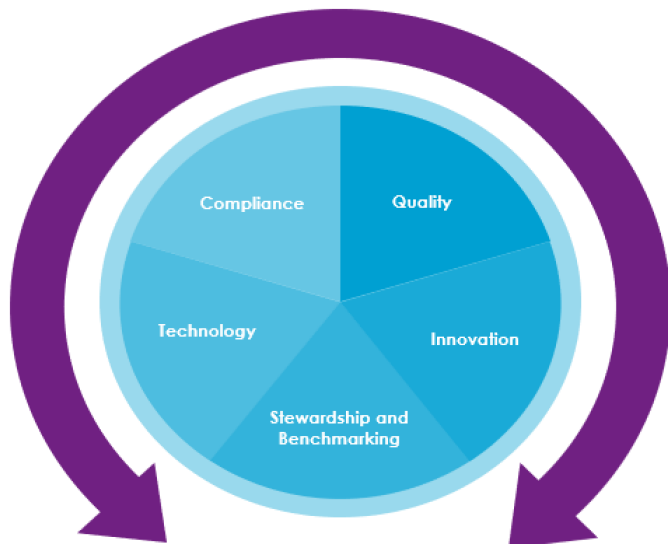

HERE'S A LITTLE MORE
